

From Extreme Nervousness.

THAT no one remedy can contain the elements necessary to cure all diseases, is a fact well known to everyone. Dr. Miles' System of Restorative Remedies consists of seven distinctively different preparations, each for its own purpose.

Mrs. L. C. Bramley, 37 Henry St., St. Catharines, Ontario, writes: "For years I suffered from extreme nervousness and annoying constipation, developing into palpitation and weakness of the heart. I was unable to sleep, suffered much from headache, pain in my left side, palpitation and a constant feeling of weakness and prostration. I began using Dr. Miles' Nervine, Heart Cure and Nerve and Liver Pills and the Anti-Pain Pills to relieve sudden paroxysms of pain and headache. I soon felt much improved and the pains and aches and weakness left me. I then took Dr. Miles' Restorative Tonic and am now restored to my former good health."

RADICAL SOCIALISTS

Will Support the New French Ministry If It Defends the Republic.

EXTRAORDINARY CABINET

Comments of The Temps on the New Government—Information at The Hague Indicates Emperor William Will Not Separate Himself from the Power on Arbitration Question.

Paris, June 24.—The first cabinet council of the new ministry was held at the Elysee palace last night, President Loubet presiding. At this meeting the general lines of a declaration to be made by the government Monday were decided upon. A ministerial statement will be drafted at a council to be held tomorrow.

At the instance of Marquis de Gallifé, minister of war, the council decided on the transfer of a number of superior officers of the army for "indulging in manifestations unbecoming soldiers."

The radical Socialists have decided to support the government provided it defends the republic. When this decision was made known M. Charles Camille Pelletan, deputy for Aix (circumscription) and a few others withdrew from the group.

The Temps says: "The composition of the cabinet may appear extraordinary in the face of the material tranquility existing; but, unhappily, moral tranquility does not prevail in the same degree. The cabinet will shortly prorogue parliament and take upon itself the solution of the Dreyfus affair."

"Within the limits of its power the government might do some useful work by defending the army against the imprudent language of its representatives and against the attacks of its enemies, by causing respect for the magistracy and their decisions, and by protecting the Dreyfus court-martial against the menaces of some and the flatteries of others."

DOINGS AT THE HAGUE

Emperor William Will Not Separate From the Powers on Arbitration.

The Hague, June 24.—The drafting committee of the arbitration commission spent yesterday afternoon in considering articles 1 and 7 of the Russian proposals. All that is left now is the drafting of regulations for the board's procedure.

The information from Germany is that Emperor William will not separate himself from the other powers in the arbitration question, and the German delegates anticipate a favorable decision on that point.

The work is now so far advanced that the conference will probably take a holiday after June 28 in order to allow the delegates to refer to their respective governments for final instructions.

Frederick Holls of the American delegation, alluding last evening to the German attitude, said: "This matter is much exaggerated. Active negotiations took place, but Germany is in no way irreconcilable and would not hesitate, more than the other powers, to agree to an arbitration court established on an acceptable basis."

"The Turks themselves state that no one is able to say they object to the arbitration scheme, and that when the proposal has been finally shaped they will examine it and only then give an opinion referring to Constantinople, if the wording of the scheme contains points not covered by the instructions."

LOVE-CHARM'S

The love-charm still lingers, the last link to the old days of ignorance and superstition when charms were believed to be powerful to cure disease and defeat death.

The day of charms is gone, although some sweet miss now and then delegates to procure a love charm, not knowing that the greatest love charm of all is the beauty of perfect health.

And this charm is in reach of every woman. When from the drains caused by feminine disorders, girls lose the beauty of form and fairness of complexion.

"I had female weakness very badly," writes Mrs. O. S. Adams, of Fargo, Cass Co., N. Dak. "I had to be in bed part of the time. I was tired all the time, could not do my housework; had fainting spells, nervous headache, backache and pain in my left side, when I would lie down; had pains and aches all over. I commenced taking Dr. Pierce's Favorite Prescription and had not taken two bottles when I was able to be around again and to do my work, with no pain; I am now feeling better than for many years."

Don't you want a reliable doctor book? By sending 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to cover cost of mailing only, you will get by return mail a free copy of his great book, "The People's Common Sense Medical Adviser," illustrated, 1008 pages, in paper-covers. Cloth bound, 31 stamps.

MINE EXPLOSION

Two Men Dead and Two Others Probably Fatally Hurt.

Roseland, B. C., June 24.—Another terrible explosion took place yesterday in the War Eagle mine, the scene of the fatality of a month ago, and in consequence three men are lying dead at the morgue, and a fifth is seriously hurt.

Five men were working in the 625-foot level with a machine drill, when one of the drills struck a "missed hole," where the shot had failed to go off. A frightful explosion took place, and Charles Post and Charles Lee were instantly killed and Mike Griffin, a married man, was so badly injured that he died on the way to the hospital. The men from all parts of the mine rushed to the help of their comrades, and they were carried out of the mine and removed to the hospital.

Dan Green is injured beyond recovery. Charles Couson received severe injuries to his right arm, the flesh being torn off, but the surgeons have hope of his recovery.

FIVE DROWNED

Young Girls Bathing in a Creek Got Beyond Their Depth.

Lampasas, Tex., June 24.—Mrs. T. J. Lloyd, living seven miles northwest of this place, with her five daughters and a visitor, Miss Childers, went in bathing in a creek yesterday. The three youngest girls went beyond their depth when their eldest sister and Miss Childers went to their rescue and all five were drowned. Mrs. Lloyd saved her other daughter only by heroic efforts. The bodies were recovered.

Ambassador Porter Gives a Reception.

Paris, June 24.—General Horace Porter, the United States ambassador, gave a brilliant party last night at the embassy. Thirteen hundred invitations were issued. Among those present were cabinet ministers and heads of departments, Benjamin Harrison and other functionaries connected with the Venezuela arbitration tribunal, and all the leading representatives of the American colony.

Teddy Roosevelt

Colonel of the Rough Riders Receives a Warm Kansas Welcome.

Chicago, June 24.—A special to The Times-Herald from Hutchinson, Kan., says: Kansas welcomed Governor Theodore Roosevelt in royal manner yesterday as the Santa Fe train sped westward with him and his rough riders to Las Vegas, where their reunion is to take place.

The warlike spirit of the governor was in the gingerjar all day. He was hardly in Kansas City when he wired President McKinley: "If there is to be a call for volunteers, I earnestly request that New York be allowed her full quota. We will send full regiments."

One old woman, just catching a glimpse of his face through the car window, could only exclaim with undisguised admiration: "Well, I'll be switched," and the governor was saying just about that time: "I do not mind this being looked at and cheered. I like to know what the common people think of what we did and how we did it. This fighting business has been a good thing for the whole country."

At Carrollton a committee of 10 from the Knife and Fork club of Kansas City boarded the train. Each man carried a cluster of flowers and Governor Roosevelt was soon decorated. The committee formed a circle about the governor and clamored for a chat on the Cuban campaign. He gave it offhand, ending with the assertion: "I was disgusted with the congress because it did not pass the army reorganization bill. Our army is just in the condition that England's was at the time of the Crimean war. It badly needs reorganization."

The governor talked of public interest in municipal government in New York city. "We have the inefficient citizen there," he said, "the one who denounces bad things when there is no election on, but when the primaries come refuses to attend; sits in his parlor, sucks his thumb and says the reason he does not go is because he will meet some big, rough fellows there. It is just as if a militia called upon to fire at a mob refused to because there were some nasty fellows in that mob. Your inefficient citizen I regard as usually as bad as your corrupt citizen."

Mayor Jones of Kansas City met the train in the suburbs and when the Union depot was reached 2,000 people were out upon the tracks. President Bovard of the Missouri Republican club had a large delegation of club members ready to escort the governor to the Blossom House, but before he left the train he made a little speech.

"I wish to come out to Kansas," he said, "when Funston comes home. [Cheers.] Nothing would please the rough riders better than to meet here in Kansas with the Twentieth Kansas and your gallant Funston, and celebrate his glorious deeds. He is not fighting Spaniards, but I guess there is not much difference in what is required to be done in either case—just manifest common honesty, common decency and common loyalty. Your greeting touches my heart, for I have really only come all this distance to meet my old rough riders. Last summer I spent before Santiago and last winter at Albany—both were pretty hard jobs, but I did the best I could."

Meets an Old Comrade.

Up out of the sea of faces before him came a brown hand in salute and the cry of a voice: "Oh, colonel." "Why, old fellow—why, Schwartz, is that you? My, but I am glad to see you. Shake." And before the multitude Colonel Roosevelt and the former rough rider, Schwartz, grasped hands as men who had fought side by side.

Then came Captain Day, and he was saluted by the colonel and Knobloch, Goodrich and Ferguson, who have been with him since he left New York. Day was at Las Guasimas when Thomas of Troop L was shot down and the command devolved upon him. Troop L was from Indian Territory and fought with great bravery. Later, Day himself was shot, but refused to leave the field of battle even when ordered to. He is a nephew of Cushing, who sunk the confederate ram Albemarle. He is going through to Las Vegas for the reunion.

"What's the matter with Kansas?" said the governor as he returned from the Blossom House reception to his train. As if to answer the question, William A. White, the editor of Emporia, and author of the famous "What's the matter with Kansas?" editorial, came in and said:

"We've excursion trains running into Emporia today just for the purpose of showing you Kansas people, Governor."

"I am glad to hear it," said the governor. "It does me good to get out. Do you know that in February alone I answered 4,854 letters. That's what I get for staying at home. Isn't Funston a bully fellow?"

Toledo, June 24.—A contract was closed yesterday by Captain Nagle with the mine operators of Ohio to deliver 40,000 tons of coal to Duluth from San-dusky. The rate is 40 cents, one of the highest in the year. The Davidson fleet will carry the coal.

SMALLPOX

Disease Has Prevailed at Valparaiso, Ind., For Three Months.

Valparaiso, Ind., June 24.—From the diagnosis of the cases investigated here, Dr. Brayton of Indianapolis and Dr. Herman Spalding of Chicago are of the opinion that smallpox is prevalent, but in a very light form, and by reason that the supposed disease had been here for three months, there is no occasion for alarm or for a quarantine of the town. The city officials have taken all necessary precautions, having isolated the cases, and Mayor Woodhull last evening issued a proclamation to the people urging them to be vaccinated. Local physicians still claim it to be chicken-pox.

Huntington Loses an Industry.

Huntington, Ind., June 24.—The Huntington Handle Manufacturing company, one of the industries of this city, will remove to Fort Wayne. It is said that Fort Wayne affords better shipping facilities. The company has bought land in the eastern part of the latter city, and will erect a \$10,000 brick factory building.

STRIKE GROWING

Nearly Three Hundred Stockyard Men Join the Strikers at Chicago.

Chicago, June 24.—Nearly 300 men joined the ranks of the stockyard strikers yesterday making the force that is now out 600 and the strike is apparently on the increase. The first establishment affected yesterday was Armour & Co., pork packinghouse. The men who shackle the hogs in the killing department went out, after which not a hog was killed in the house. With the "shacklers" went the "shovers." The "shackers" demand \$2.75 a day and the "shovers" \$2.50, being an increase of 25 cents in each department.

At Swift & Co.'s it was said that about 100 men had joined the strike and had been given their time. T. J. Lipton & Co., lost 30 more, and 100 men in the sausage trimming department of the International Packing Co., left their places. Some of these men were taken back at the increase demanded, but the raise was not given to all.

Redwood Lumber Combine.

San Francisco, June 24.—The Evening Post says that Chicago capitalists are behind a proposition looking to the formation of a trust in redwood lumber companies on this coast. The firm of Gray & Mitchell, the paper says, is working to get the principal redwood lumber men into a combine which will control the supply and the prices to be paid for redwood lumber.

ROYAL BAKING POWDER CO., NEW YORK.

TRADE CONDITIONS

Bradstreet's Weekly Report on the Standing of the Markets.

New York, June 24.—Bradstreet today says: Less than the average effect of approaching midsummer influences is discernible in current trade reports. Prices, too, show a strength unusual at this period, and particularly in view of recent steady advances. This is notably manifest, of course, in the iron and steel industry, where the tendency of values is still upward, though the advances reported are not uniform at all markets, pointing to individual instances of business done at best possible prices. Where prompt delivery can be guaranteed, fancy quotations are in many cases obtainable, and testimony to the scarcity of supplies is universal.

Hopes of improvement in the woolen goods industry have materialized in an active demand at leading markets for the manufactured product, and simultaneously from several markets come reports of abnormally small stocks of lightweight goods in dealers hands. Wool is more active and firm in sympathy therewith, and sales are larger, though mostly on speculative account.

Wheat has been affected by glowing reports from spring wheat sections, but more especially by continued enormous deliveries of old crop supplies pointing to the 1898 spring wheat yield and therefore the aggregate yield of the country, having been heavily underestimated. At the decline, however, good buying on export account has developed. Cotton crop prospects have continued to improve and the raw product is lower on the week, with a slight shading claimed also in printcloths, although cotton goods as a whole are in an exceptionally strong position.

Raw sugar is lower on unanimous reports of improving crop prospects the world over, but refined sugar is in heavy domestic demand and firm.

Lumber retains all of its early strength.

A visit will also be made to the memorial building and public library of which the president laid the cornerstone on his previous visit.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

SATURDAY, JUNE 24, 1899.

JOHN OVERMYER is fixing to capture Brown county. He will make a Fourth July speech at Nashville.

PETER PHILLIPPI was elected county independent of Knox county on the 15th ballot, after a long and bitter contest.

For the Kentucky democrats "in convention assembled", don't get together until soon the delegates will have a chance to attend church services in Louisville tomorrow.

The ovation tendered Governor Roosevelt in the West is sufficient proof of his popularity. He is a hero to the people, and none the less so as governor of New York than when he was leading the Rough Riders before Santiago. It takes a brave and courageous man to accomplish what he has so easily accomplished as governor.

Commenting on Congressman Griffith's absence from the free silver meeting the Vevay Reveille says: Griffith is smart enough to know he could not gain anything by going to the Louisville meeting, and to lose something. It was all free for a declining issue, and any bandwagon that is loaded with that issue will not travel very fast or far, especially with a national banker as a driver.

Locks like John Overmyer was making inroads in Jackson county. Seymour Democrat comes out with an article about him and calls attention to the fact that the North Vernon banker and statesman was a native of this county. But what about Barnes and Jas. F. Applewhite? They are said to be willing to succeed Griffith?

Long Irritation.

Forerunner to consumption. Dr. Pine-Tar-Honey will cure it. It gives strength to the lungs that a cold or cough will not settle there. Five cents at all good druggists.

THEY DON'T EXPLAIN.

It is amusing to hear a democrat argue against trusts. He usually starts with the proposition that the protective tariff is the cause. He does not stop to explain how it happens that free trade England is plastered over with trusts, nor does he explain how the tariff has any connection with the Standard Oil Company and numerous other great trusts of this country that manufacture goods which are wholly unprotected. He doesn't have to explain. It is not the business of a democrat to explain, he simply asserts.

But the great hobby of the anti-trust democrat is the money trust. Strange, too, that there could be a money trust when there is no tariff on money; but since he does not have to explain it is as good an argument as any.

Before he is through discussing the question he is likely to call attention to what he terms the great newspaper trust. He asserts that all the great newspapers of the country are in cahoots to fasten the gold standard on the people. Of course the Indianapolis Sentinel, the Cincinnati Enquirer and the New York Journal are great newspapers, and there you are again. If it were necessary to explain, the task would, indeed, be difficult.

Beat Their Children.

D. A. Jennings, of Salem, is in trouble again and his wife is a party to his meanness according to Friday's issue of the Salem Republican which says:

"D. A. Jennings has allowed his infernal downright meanness to crop out again, and once again has he nearly beaten his children, a little girl and boy, to death. This time it seems that his wife has also displayed a little of the devil that may be in her and has helped him out in his meanness.

From what we can gather as it passes along, it appears that Mrs. Jennings had some cause to correct her daughter Myra, yesterday, and instead of going about it in the right manner, proceeded to knock the child down, pick her up by the hair, drag her through the kitchen, and there stand by and see her infernal husband whip her unmercifully with a buggy whip.

This morning the affair was repeated again. Both the girl and boy were held and beaten until they couldn't stand."

It Would Be a Joke.

The Sun tooms John Overmyer for congress this week. The claims of Griffith, Shea, Barnes and Dixon are as nothing to him. It would be huge joke on Overmyer and Butler if Griffith were strong enough to beat their supposed combination.—North Vernon Republican.

Bert Edmondson, of the B. & O. S-W. ticket office, went to Bedford, today to visit his mother for a few days.

Printers' Ink-lets.

The most money has always been made by advertisers who sell articles appealing to the rank and file of the population.

It is not possible to make an advertisement too plain. Nothing aids in this direction more, perhaps, than an accurate picture.

Generalities, whether in essay or advertisement, leave no definite impression; and the announcement that is full of them can hardly be expected to bring returns.

The man who puts up a ladder that does not quite reach the point he desires to reach is like the man who does just a little too little advertising. Both would be as well off if they did nothing at all.

Lavish expenditure is not as necessary to advertising as intelligent expenditure. He who spends a thousand dollars in ways that experience has proved profitable will get more returns than he who disposes of three times that amount in judicious directions.

It is not only necessary that the announcement should be truthful, but also that it should sound truthful. Many who have no intention of deceiving the public are unable to produce an advertisement that gives the impression that the advertiser is honest and fair.

RAILROAD RUMBLINGS.

Engineer James Wyatt and wife went to Louisville this morning to attend the funeral of his niece, Miss Wyatt, who was fatally burned on the 15th.

Engineer Bruce Murphy who is having his bad farm near Shields put in condition for raising a crop went to Cincinnati today to take his run on the branch.

The Jerrell Case.

The case of Rosa Jerrell against the city of Seymour will come up for trial at Scottsburg next Monday. A large number of witnesses have been summoned and the case will be hotly contested on both sides. This is the second trial, Judge New having granted a new trial on motion of defendant.

Suicide Near Grammer.

Fred Friedersdorf, son of Lewis Friedersdorf, who resides near Grammer, committed suicide Friday evening by shooting himself. Dependence, supposed to be the cause. He had been driving a binder all week and was apparently in his usual health.

Mr. P. Ketcham, of Pike City, Cal says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this ointment affords. For sale by C. W. Milhous.

A Jackson County Case.

The case of Lewis M. Rutherford vs. Henry H. Prince, guardian of Diana S. Russell, venued from Jackson county was tried by jury and decided in favor of defendant. The Scott county Democrat has this to say of the history of the case:

"This was a case from Grassy fork township, Jackson county, from which place a large number of witnesses were present and testified. Mrs. Russell was declared a person of unsound mind in the Jackson circuit court at the August term, 1898, and J. F. Keach was appointed her guardian, but resigned in February last and Henry H. Prince was appointed her guardian. The old lady was taken sick and a female relative by marriage waited on her for several weeks, but at the instigation of Prince was ordered from the house and suit was brought in the circuit court to restrain them from visiting or having any communication with the old lady, which restraining order was granted, although the aged Diana Russell, who is worth at least \$2,000 desired them to remain with her and wait upon her, but the guardian furnished a hired girl of his own choice regardless of the old lady's wishes."

AN HONEST INDIAN.

A Singular Experience With Arapooish, a Chief of the Crows.

Arapooish, chief of the Crow Indians, was a man of wonderful influence. In "Bonnieville's Adventures" an incident is related showing his method of restraining the evil propensities of his braves. Mr. Robert Campbell, while a guest in the lodge of Arapooish, had collected a large quantity of furs and, fearful of being plundered, had deposited a part in the lodge. The rest he buried.

One night Arapooish entered the lodge with a cloudy brow and, turning to Campbell, said:

"You have more furs with you than you have brought to my lodge?"

"I have," replied Campbell.

"Where are they?"

Campbell described the place.

"Tis well," said Arapooish. "You speak straight. But your cache has been robbed. Go and see how many skins have been taken."

Campbell examined the cache and estimated his loss to be about 150 beaver skins.

Arapooish summoned his people, reproached them for robbing a guest and commanded that the skins should be brought back. For himself, he would not eat or drink till all had been restored.

Soon the skins began to come in. They were laid down in the lodge, and those who brought them departed without a word. Arapooish sat in one corner silent. Above a hundred pelts were brought in, and Campbell expressed himself satisfied. Not so the Crow chief. He fasted all night. In the morning more skins were brought in, and one and two at a time they continued to come through the day.

"Is all right now?" demanded Arapooish.

"All is right," replied Campbell.

"Good! Now bring me meat and drink," said the old chief.

Listen to This Woman's Story

Sarah E. Bowen, of Peru, Ind., said:

"For eighteen years I suffered with weakness peculiar to my sex. I could neither sleep nor eat well, and was reduced to a mere skeleton. My skin was muddy, my eyes heavy, and I was dizzy much of the time. Doctors prescribed for me without avail; medicine seemed to do me no good. I was at the brink of despair when a friend told me what Dr. Williams' Pink Pills for Pale People had accomplished in a case similar to mine. I bought a box and took them. I bought more and took them until I was well and strong. Dr. Williams' Pink Pills for Pale People brought me new life and I recommend them to every suffering woman."—From the *Republican*, Peru, Ind.

Methodist Repudiates His Note For Failure to Get Value Received.

Some months ago he gave his note for the subscription to the church trustees, and they brought suit before a country justice. Winegardner set up the defense that a note is worthless unless it can be shown that the maker got value received. The rural squire found for Winegardner, and the trustees say they will appeal. They regard it as an insult to the qualities of exhortation possessed by the preacher.

WINE OF CARDUI

WOMEN WHO WORK.

St. Louis, Mo., Aug. 12. Though only 19 years old, I suffered from pain and female troubles two years. I had to spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. I have now used several bottles and am well. My mother used the Wine of Cardui for Change of Life and was greatly relieved.

MISS MARGARET WALSH.

Wine of Cardui

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tireless tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost, and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.
